## Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro\*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

## Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

Very much a social animal, you communicate yourself best when in a group or when working toward some very worthwhile goal. You come across as impartial, tolerant, and open. Your idealism is apparent to all who come to know you.

## **Planet Aspects**

### **The Lights: The Sun and Moon**

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### **The Sun: Your Self and Future**

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

Go for it! Do it now and ask questions later, for you are a born leader, always first and never afraid to go it alone. Your sense of mission makes for impulsive, sometimes rash (but always brave) actions. Your motto is: Don't think about it, let's get the show on the road.

*Sun in Aries*

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

*Sun Conjunction Mercury*

It is easy for you to work with those in authority -- those older and more experienced than you. You enjoy working with others and would make a good manager. An interest (and ability) in athletics, exercise (working with the physical body), the outdoors, and such, should be lifelong. Another form this could take is training or coaching others. You have a natural ability to express yourself and handle emotions and you may like to perform a bit. A career in one of the entertainment industries is a possibility.

*Sun Trine Mars*

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

### **The Moon: The Support System**

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You have strong, stable emotions and tend to draw around you the perfect environment for your upbringing. The thing you need is always at hand. In addition, you get much support and good fortune from friends and relatives. You value constancy and security in all things and possess a good business sense. You are, by nature, very domestic and enjoy nice surroundings.

*Moon in Taurus*

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

*Moon Square Mars*

You have a built-in sense of what the public wants and can always come up with just the right image. You find it easy to work with the emotions and feelings of others, and with great imagination. Your sense of the ideal springs to life whenever other people are involved. A born arranger of atmospheres, you enjoy working with groups of people. You are also very creative when it comes to your home and surroundings.

*Moon Trine Neptune*

Your close ties with home and family, plus your career interest, may cut into your social life and personal charm. Others may find you somewhat preoccupied and lacking in the social graces. You may feel some regret or tension from this situation.

*Moon Square Ascendant*

### **The Inner Planets: Mercury and Venus**

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we

think and communicate -- our intrinsic brightness.

### **Mercury: The Mind and Communication**

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a sharp tongue and a quick wit. You speak first, then think about it. Not subtle or complex, you are direct, simple, and to the point. An independent thinker, you would rather speak than listen. Argumentative too. You are quite impulsive when it comes to communicating, and often use strong words.

*Mercury in Aries*

You are very bright, and you may be very proud of your mind and all that it can do. You have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

*Sun Conjunction Mercury*

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't seem to figure out the right course of action. This is most true when it comes to your career or vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

*Mercury Square Jupiter*

You do a lot to fulfill the popular stereotype of the "genius," so obviously brilliant are some of the things you think and say. You have such an outpouring of insights that having a conversation with you can be a real experience. Your mind works like lightning. Words and thoughts sort of shoot out, illuminating whatever subject is at hand. You really do have very different ideas and ways of expressing them. There may also be a sustained interest in communication, computers, electronics, and all that is electrical.

*Mercury Conjunction Uranus*

Your mind is ever on communication, how you present yourself and come across with others. It is easy for you to express yourself in a crowd, and you are a real smoothie. Everything seems to work out for you when you are talking with others.

*Mercury Sextile Ascendant*

Your mind is full of practical ideas, especially related to your job or skills. Always coming up with new ideas to manage things better, make things work -- practical thoughts.

### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Marriage for convention's sake, if at all, is your motto. Let's not get too personal or emotional. A friend's friend. You love to work for a great cause or purpose, and a better world is the place to be. You appreciate what's fair and democratic, and feel most happy in a group or community.

*Venus in Aquarius*

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. You value independence in partners, friends, and love. You are what is called a "free spirit".

*Venus Sextile Uranus*

### **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have a real security drive and a need to care and protect others -- mother hen. Very sensitive to the slightest emotional change, you have all the artistic traits and talents. If threatened, you can be very defensive, and you hate competition. You love family, children, and animals. You have common sense.

*Mars in Cancer*

A natural ability to use emotions in productive ways. Entertaining others is one form this might take. Hard work and all things physical (such as sports and outdoor activities) should be a snap. You are able to manage and see how to work with the energy of others.

*Sun Trine Mars*

Your own forcefulness and drive can make it difficult for others to offer you nourishment and support. You can be too harsh to allow any real sentiment and feeling to flourish. You tend to ignore personal history and any display of emotions.

*Moon Square Mars*

You have a strong drive, but resist training and discipline. You avoid opportunities to put your energy to work and to learn how to accomplish things. You shirk paying your dues. Your lack of self-discipline brings you in conflict and confrontation with authorities and/or realities. You tend to neglect and ignore responsibilities and put off determining yourself. You can't seem to get to work.

*Mars Opposition Saturn*

You put forth a lot of effort, in particular regarding your career. Your drive and ambitions work well with whatever management skills and practical ability you have, producing a harmonious work environment.

*Mars Trine Midheaven*

**Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

A career in big business is possible, for you like broad, secure foundations. It is important for you to feel safe, and you are very domestic -- family, home, and kids. Supportive, nurturing, you use your intuition and gut instinct over thought and deliberation. Fiercely loyal, you are a street fighter when protecting your own interests or those you love. Very dependable.

*Jupiter in Cancer*

Your ideas and plans are not always the most practical or expedient. Fond of grand schemes, verbalization, and the like, these ideas don't often boil down to real solutions. Your main path may involve taking many of your ideas with a grain of salt.

*Mercury Square Jupiter*

Your career is smooth until the question of personal freedom comes up. Successful career moves may demand conformity and cost you personal freedom, perhaps toning down your unconventional habits. You may have to conform and go along in order to get the right job. This is a source of some tension, and your tendency to rebel can get you in hot water every time.

*Jupiter Square Uranus*

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

*Jupiter Conjunction Pluto*

**Saturn: Responsibilities**

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

Organizational problems. You have a tendency to avoid taking charge or responsibility and may need to accept a more disciplined and serious approach to life. Learn to enjoy hard work. Persevere. Learn how to manage. You may feel uncomfortable when in the public eye.

*Saturn in Capricorn*

You have enthusiasm and drive, but tend to lack the discipline and methods to put your energy to work. Your emotions can cause you to neglect your responsibilities, and you may find yourself going up against authorities or the status quo.

*Mars Opposition Saturn*

You have trouble controlling yourself and tend to fluctuate between uninspired routine and crazy binges. Your sense of responsibility and the way you go about organizing your life seem like a prison sentence. You rule out any possibility of change, all spontaneity. You get so set in your ways that you can't help but revolt and break out. Your flings have a total lack of caution. When they die down, you find yourself seeking refuge in the same old routine, and we begin again.

*Saturn Square Uranus*

You are very touchy and tend to keep your vulnerability hidden from others. You work hard at avoiding personal confrontation and sensitive issues. In fact, you are very determined about this. Areas where you are insecure seldom have any opportunity to get aired out and toughen up. Your serious exterior covers over tender feelings. Duties and responsibilities could keep you from opportunities for change and inner growth.

*Saturn Opposition Pluto*

### **The Outer Planets**

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You are innovative when it comes to leadership, new starts, pioneer-type projects. You have bold and startling insights and tend to break away from tradition. You find freedom in sports, exploration, impulse-buying, and getting out. A standard bearer. You have insights into energy and action.

*Uranus in Aries*

A genius perhaps -- at least others may think so. Your mind always manages to find a new and different way to think and to put your ideas into words. Brilliant, restless, and unusual. Computers, radical methods of thought, and communication are for you.

*Mercury Conjunction Uranus*

A love of the new and unusual. Able to grasp and appreciate new trends and concepts at the very

forefront of technology. A very free spirit when it comes to friends, lovers, and tastes. In love with what's original. Breaking through.

*Venus Sextile Uranus*

A rebellious streak could affect your career. Your sense of independence may tend to kick over the apple cart and upset everything. Your progress and success may be at the expense of your more unconventional tendencies -- a source of struggle.

*Jupiter Square Uranus*

You are torn between the radical, rebellious, and independent person you feel yourself to be, and a more conservative and traditional bent. Your organized moments may lack originality, and your crazier moments want caution. An ongoing battle.

*Saturn Square Uranus*

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

*Uranus Square Pluto*

#### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Practical salvation is the idea, saving the physical. You do this via exercise, diet, vitamins, life-extension aids, and such, and right livelihood is as important as right food. Song lyrics. You love to restore and redeem the physical world. A great love of details or trivia.

*Neptune in Virgo*

A born director and orchestrator of the moods and emotions of a group. A sharp sense of drama and a feeling for spiritual ideas and for art in general. Dreamy. Able to understand the public's mood and what is required to please. Could be deceptive.

*Moon Trine Neptune*

You are an idealist when it comes to partners and relationships, always holding out for what your imagination tells you could be. This could result in disappointment when others fail to measure up to your expectations.

*Neptune Square Midheaven*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity or vulnerability.

*Pluto in Cancer*

Your life-course takes you straight through depth psychology, transformation, regeneration, and all that is vulnerable within us. You may function as a guide or teacher in these realms. You work with areas of the human psyche that are too hot to handle.

*Jupiter Conjunction Pluto*

Your conservative tendencies may find you somewhat superficial. You avoid looking at or working with inner, emotional, and sensitive areas of your psyche unless forced. You fear and yet are attracted to intense, passionate issues and emotional displays.

*Saturn Opposition Pluto*

Your sense of originality and insight does not go so far as to inquire into areas of psychological sensitivity and vulnerability, which you tend to leave alone. This can produce tension to the degree that you possess a need for inner growth and change.

*Uranus Square Pluto*

### **Challenges and Abilities**

#### **Focus**

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

*Sun Conjunction Mercury 06°22'*

You do a lot to fulfill the popular stereotype of the "genius," so obviously brilliant are some of the things you think and say. You have such an outpouring of insights that having a conversation with you can be a real experience. Your mind works like lightning. Words and thoughts sort of shoot out, illuminating whatever subject is at hand. You really do have very different ideas and ways of expressing them. There may also be a sustained interest in communication, computers, electronics, and all that is electrical.

*Mercury Conjunction Uranus 07°21'*

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

*Jupiter Conjunction Pluto 07°54'*

### **Challenges**

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscurity often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You are an idealist when it comes to partners and relationships, always holding out for what your imagination tells you could be. This could result in disappointment when others fail to measure up to your expectations.

*Neptune Square Midheaven 01°18'*

You are very touchy and tend to keep your vulnerability hidden from others. You work hard at avoiding personal confrontation and sensitive issues. In fact, you are very determined about this. Areas where you are insecure seldom have any opportunity to get aired out and toughen up. Your serious exterior covers over tender feelings. Duties and responsibilities could keep you from opportunities for change and inner growth.

*Saturn Opposition Pluto 03°09'*

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

*Mercury Square Jupiter 03°40'*

Your career is smooth until the question of personal freedom comes up. Successful career moves may demand conformity and cost you personal freedom, perhaps toning down your unconventional habits. You may have to conform and go along in order to get the right job. This is a source of some tension, and your tendency to rebel can get you in hot water every time.

*Jupiter Square Uranus 03°41'*

Your close ties with home and family, plus your career interest, may cut into your social life and personal charm. Others may find you somewhat preoccupied and lacking in the social graces. You may feel some regret or tension from this situation.

*Moon Square Ascendant 04°13'*

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

*Uranus Square Pluto 04°13'*

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

*Moon Square Mars 05°38'*

You have a strong drive, but resist training and discipline. You avoid opportunities to put your energy to work and to learn how to accomplish things. You shirk paying your dues. Your lack of self-discipline brings you in conflict and confrontation with authorities and/or realities. You tend to neglect and ignore responsibilities and put off determining yourself. You can't seem to get to work.

*Mars Opposition Saturn 06°40'*

You have trouble controlling yourself and tend to fluctuate between uninspired routine and crazy binges. You get so set in your ways that you can't help but revolt and break out. Your flings have a total lack of caution. When they die down, you find yourself seeking refuge in the same old routine, and we begin again.

*Saturn Square Uranus 07°22'*

### **Talents and Abilities**

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You have a built-in sense of what the public wants and can always come up with just the right image. You find it easy to work with the emotions and feelings of others, and with great imagination. Your sense of the ideal springs to life whenever other people are involved. A born arranger of atmospheres, you enjoy working with groups of people. You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

*Sun Trine Midheaven 01°38'*

It is easy for you to work with those in authority -- those older and more experienced than you. You enjoy working with others and would make a good manager. An interest (and ability) in athletics, exercise (working with the physical body), the outdoors, and such, should be lifelong. Another form this could take is training or coaching others. You have a natural ability to express yourself and handle emotions and you may like to perform a bit. A career in one of the entertainment industries is a possibility.

*Sun Trine Mars 02°15'*

You put forth a lot of effort, in particular regarding your career. Your drive and ambitions work well with whatever management skills and practical ability you have, producing a harmonious work environment.

*Mars Trine Midheaven 03°53'*

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything

electrical) are right up your alley. You value independence in partners, friends, and love. You are what is called a "free spirit".

*Venus Sextile Uranus 04°29'*

Your mind is full of practical ideas, especially related to your job or skills. Always coming up with new ideas to manage things better, make things work -- practical thoughts.

*Mercury Trine Midheaven 04°44'*

## **Landscape: Major Life Periods**

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### **Your Personal Background**

Your early years, until the age of 11-12, may not be very easy. You may be a more inward and insecure youngster than average. The early teens should see the end of this stage and the beginning of a much more outward and self-confident one. You will begin to sense your own strength and discover yourself at this time. What follows will be a time of learning and extending your position until around the age of 18-19, at which time you will really begin to come into your own, both in a social sense and where your career is concerned. The years from 18-26 will be very strong, during which you can do no wrong. You should rise rapidly to a position of success. After that, you will become more inward and turn away from the outer. A time for consolidation.

### **Your Current Situation**

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**Sep 25, 2005 1st Pass D> (Age 74 6m)**  
**Jan 21, 2006 2nd Pass R< (Age 74 10m)**  
**Jun 14, 2006 3rd Pass D> (Age 75 2m)**

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

*Saturn in 03rd Quadrant*

### **The Elements, Modalities and Angularity**

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

*Have Fire*

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are indomitable. You mistrust that which is new or untried.

*Have Earth*

You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seem "long" on ideas.

*Want Air*

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

*Have Cardinal*

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have

trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

*Want Mutable*

Your feelings need to be stirred before you can throw yourself whole-heartedly into any venture. Love, ideals, and a strong sense of your own worth are vital to your well-being and ability to function.

*Have Succeedent*

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

*Want Angular*

### **Your Burn Rate**

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

### **Planets in High Focus**

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of

feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

*Mars*

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

*Jupiter*

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

*Pluto*

### **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

*Geo: Square Helio: Square*

### **Your Soul Type**

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or

where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

*Square Type*

#### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

Your sense of direction and guidance are the key to understanding you at any in-depth level. You are a natural problem-solver, always managing to come up with the correct approach. There is an innate capacity to negotiate with the law and authorities, plus an ability to find your way (the correct way) when it comes to inner and spiritual matters. Others sense this gift, and accept guidance and council.

*Jupiter*

At heart, you have a deep sense of responsibility and purpose, and this seriousness is genuine and felt by others. You seem to gravitate to those things which last and hold true, and are always separating the wheat from the chaff. You manage to get down to the bare bones. Matters of law, religion, and philosophy of the most resolute kind hold your interest.

*Saturn*

#### **The Key to your Personality**

Your outward seriousness and no-nonsense approach to things is obvious to all. This deliberate sense of responsibility comes across and is central to your personality and the way you relate to other people. Everything is run through your checkpoint to see if it holds up and can pass the test. You can be a stickler with details.

*Saturn*

### **The Personal Hot Spot**

Your career, sense of judgment, and problem-solving ability are at the top of the list as the key components to look out for whenever you are stroked or stressed.

*Jupiter*

When you get stress, it will tend to affect your sense of independence and originality -- for better or worse.

*Uranus*

### **Interface: Innermost qualities**

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

*Mercury Inc Venus*

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

*Mercury Inc Saturn*

You cherish whatever is different and out of the ordinary. The commonplace and the humdrum are not for you. Your friends and surroundings -- everything around you -- must be unconventional to the point of being controversial. You could care less what others think, and this independence is your passion. The way you show affection may also be unusual, and your partners are certainly nonconformist. You set a high value on being different.

*Venus Inc Uranus*

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes.

This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

*Jupiter Inc Pluto*

You may have a tendency to avoid sensitive subjects and to take refuge in duties and responsibilities rather than face issues that might disturb you or put you through some changes. You are a stern pragmatist in all that is psychological -- whatever wells up from inside us. Your need for psychological security and absolute truth in all matters cuts through most chit-chat and settles on core material. You concentrate on deep, inner changes in you and in others -- depth psychology.

*Saturn Inc Pluto*

You have real vision and insight into the unity that ties this world together. Your brilliant imagination and enchanting manner transport all who meet you beyond the mundane and into the extraordinary regions where you spend a lot of your time. You are a seer, in the true sense of the word, and possess a waking experience of that part of us that is mystical and dreamlike. You find new ways to bring people together, to unify situations. Unusual music.

*Neptune Inc Uranus*

You have a relentless drive to get at the heart of things, whatever is under the surface or behind the scenes. Your relentless pursuit of anything hidden or secret makes you a researcher or investigator bar none. Emotionally you are also hot stuff, rushing into areas and handling subject matter that others would never come near. Vulnerable issues, sensitive areas of the self, and psychology are the first places you head. This amounts to a passion with you. Those around you may find you just too intense to be around. It puts them through a great many changes.

*Pluto Inc Mars*

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

*Pluto Inc Uranus*

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

*Pluto Inc Jupiter*

You may have a tendency to avoid sensitive subjects and to take refuge in duties and responsibilities rather than face issues that might disturb you or put you through some changes. You are a stern pragmatist in all that is psychological -- whatever wells up from inside us. Your need for psychological security and absolute truth in all matters cuts through most chit-chat and settles on core material. You concentrate on deep, inner changes in you and in others -- depth psychology.

*Pluto Inc Saturn*

Your interest in religion, spiritual matters, and things that stretch beyond the course of a single human lifetime is quite unique. Others may not be able to share your vision into the spiritual and psychological, seeing you as something of a weirdo. To get to know you is to catch a glimpse, however brief, into some of the eternal thoughts and realms. You are very devotional when it comes to anything connected to spiritual and inner growth, and the process of personal introspection and analysis is also sacrosanct.

*Pluto Inc Neptune*

### **Major Transits Happening Now**

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

**Jun 29, 2013 1st Pass D> (Age 82 3m)**

### **House Activity and Emphasis**

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

## **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

*First House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*

You value a good appearance -- how people present themselves or come on. You value the personal approach and are very discriminating personally when it comes to matters of taste and art.

*Venus in First House*

## **Second House: Possessions, Reactions**

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

*Second House*

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

*Aries*

You are very responsive and probably not a little possessive. You tend to collect things, and material success -- money, home, security, possessions, -- is very important. You tend to be very supportive of others.

*Sun in Second House*

Good things (the support you need) always seem to come to you. Friends, co-workers, and plain old lucky circumstances offer encouragement and backing. You often get what you need, when

you need it.

*Moon in Second House*

You have a good mind for business. You tend to think along lines that are practical and conservative, always coming up with sound and productive ideas.

*Mercury in Second House*

You may have unusual ways of responding to what life offers you, with the result that the way you make your living is somewhat eccentric. Your means of support may be individualistic and different from the group.

*Uranus in Second House*

### **Third House: Inquiries, Communications**

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

*Third House*

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

*Taurus*

### **Fourth House: Home, Family, Security**

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

*Fourth House*
